## WORK EXPERIENCE

### Frontend developer

Apexture Private Limited

12/2023 - Present

surat

#### Achievements/Tasks

- Delivered responsive, high-performance UIs using React.js, Next.js, and Tailwind CSS, ensuring clean architecture and reusable component structures. Improved user experience through optimized rendering and modern frontend patterns.
- Converted UI designs into functional components and connected them with APIs. Collaborated with the team to ensure the frontend matched the project requirements.
- Improved small UI issues, fixed bugs, and added new features across different projects. Helped make the overall user experience smoother and more consistent.

## SKILLS

React.js

Next.js

JavaScript (ES6+)

Tailwind CSS

HTML5 & CSS3

Responsive Design

Git & GitHub

State Management

## PROJECTS

### Airvik-dyad

- Developed the **frontend** of the website using **Next.js** and **Tailwind CSS**, designing a responsive UI featuring **rooms**, **amenities**, **shop**, and **spiritual offerings** sections. Implemented optimized navigation, dynamic content, and server-side rendering to deliver a **high-performance**, **SEO-friendly**, and visually appealing **React** application.

### Emart

- Developed a full **React**-based plant e-commerce frontend with a clean hero banner, category-wise product filtering, and discount-highlighted product cards. Designed a highly responsive grid layout with reusable components, modern **UI/UX**, and a visually appealing shopping flow showcasing premium interior plants and gardening essentials.

### Remityn

- Developed a modern, responsive money-transfer platform using **Next.js** and **React**, enabling real-time currency exchange, secure transfer flow, and intuitive UI. Integrated **API-based dynamic data**, testimonials, feature highlights, and mobile-friendly layouts to deliver a smooth, fast, and user-focused cross-border transaction experience.
